

IS 14489

Code of Practice on Occupational Safety and Health Audit

THIS STANDARD ESTABLISHES AUDIT OBJECTIVES, CRITERIA AND PRACTICES, AND PROVIDES GUIDELINES FOR ESTABLISHING, PLANNING, CONDUCTING AND DOCUMENTING OF AUDITS ON OCCUPATIONAL SAFETY AND HEALTH SYSTEMS AT WORKPLACE.

Promoting safe Behaviour at work is critical to managing health and safety as Behaviour turns systems and procedures into reality. On their own, good systems do not ensure successful health and safety management, as the level of success is determined by how organizations 'live' their systems.

FOR MORE DETAILS, PLEASE TURN OVER

IS 14489 - Code of Practice on Occupational Safety and Health Audit

It provides guidelines for verifying the existence and implementation of elements of occupational safety and health system and for verifying the system's ability to achieve defined safety objectives. It is sufficiently general in nature to permit it to be applicable or adaptable to different kinds of organizations. Each organization should develop its own specific procedures for implementing this standard (with inputs from BIS)

This is a detailed checklist based audit covering about 30 elements and 270 check points on the Occupational Health and Safety Compliance in any organisation.

The strength of the audit lies in the enabling the organisation to ensure its preparedness towards ensuring a safe environment for its employees and the society at large.

UL DQS India has competent auditors with multiple decades of expertise and experience in Environment, Health and Safety in various industries. They bring deep understanding of the processes and the safety aspects and do a highly objective, unbiased and fair assessment of the existing practices through a RISK based approach and a detailed report is submitted covering all the check points with as Summary on the areas of improvement / caution as well as best practices noticed during the audits. While Legal compliance verification is one of the focus area in the Code, the UL DQS India team provides in-depth inputs through an exhaustive checklist (developed internally) to the organisation to plug gaps that might exist.

IS 14489 is mandatory for all Hazardous industries and we at UL DQS India would be keen to partner with you on in your journey towards Safety Excellence. Our experts provide inputs in Environmental Protection for key inputs which organisation can work through (Air, Water Pollution, Waste, Container Management, Drinking water etc!)

Other services under our Safety Excellence program are:

- Process Safety Management (PSM) including Process Hazard Analysis
- Behaviour Based Safety (BBS)
- Hazard and Operability Analysis (HAZOP)
- Construction Project Safety & Contractor Management

About DQS India:

We are an organization that thrives on its ability to recognize and characterize diversity in Quality & Excellence. We know that no two organizations are the same. For DQS, Quality & Excellence convert into our deeds & actions.

Certification:

Certification in essence is about an edge to your organization. But that edge should not be shallow in any way. We at DQS India, have an approach that is much different than the ones usually taken by others. This approach actually requires our clients to learn the Certifications and apply them, in spirit, in their respective fields.

Certifications that we offer:

AS 9100, AS 9110, AS 9120, ISO/TS 16949, VDA 6.3, ANSI/ESD S 20.20, RC 14001, ISO 29990, WHO GMP, ISO 22000, WHO GMP, BRC, HACCP, eSCM, CMMI, ISO 20000, ISO 13485, IRIS, ISO 28000, TL 9000, ISO 29001, ISO 14064, IQNet SR10, GRI Reporting, ISO 9001, ISO 14001, OHSAS 18001, ISO 27001, ISO 22301, Sa8000 & ISO 50001
