

Impartiality Statement

Impartiality requires complete independence as a certification body. We, at DQS India, stand committed and ensure that we carry out our certification decision-making activities with complete independence, based on facts and objectivity throughout the certification processes.

The potential threats to the conflicts of interest are evaluated and managed by the organisation in a structured manner and we ensure that the decision-making process is objective in nature and is based on the evidences provided by the clients.

Confidentiality Statement

For a certification body, openness means unrestricted access to certification services without any undue discrimination. Confidentiality is a key asset in building sustainable business partnerships with our customers. Professional data and information protection is a continuous critical activity at DQS India.
